Problems encountered and resources required:

Report flagging PM Kaushal Vikas Yojana issues significant in the context of growing unemployment.

There is active participation of PMKVY centre and HEI social volunteers. There is notable significant work carried out under this best practice.

- To reach to local youth for training under PMKVY is the main problem. However, the HEI social volunteers actively worked on it. HEI- social volunteers are from various locality in Mumbai Suburban. Each one is actively working at his/her local territory. It helps to get easily the spot and selection of young youth for training under this scheme.
- To keep consistency in job assignment is another problem in this scheme. The trained youth not consistent in job assigned he / she get switch over for betterment. This is tendency of today's youth. They always in mood swing for switchover, especially in Mumbai and there are numerous opportunities get available. However, PMKVY is first 'stepping stone' to train youth to get first job and then to step over for betterment.
- Resources required are provided by Government itself. The social obligation, social placental relation as human value resource is full with HEI social workers.

Note: The Pradhanmantri Kaushal Vikas Yojana is a skill certificate scheme. It helps young Indians to get industrial relevant training to improve their employability. It provides a skill India card and a valid certification depending on which candidate can apply for various jobs.

HEI - volunteer play active role as catalyst in this process. HEI imparts soft skills, entrepreneurship, financial and digital literacy. HEI creating benchmark institution to provide aspirational value for competency-based skill development program.
